## Professional Summary

Entry-level IT professional specializing in web and mobile application development. Skilled in building responsive web apps, mobile-first solutions, and database-driven systems. Eager to apply academic knowledge and hands-on project experience to contribute to innovative technology solutions.

## Education

**Bachelor of Science in Information Technology, Specializing in Web and Mobile Applications**
*Far Eastern University Alabang — 2020-2025*

**Senior High School, Information and Communications Technology (ICT) Strand**
University of Perpetual Help System DALTA — *2018–2020*

## Skills

- Programming: Python, PHP, JavaScript
- Web: HTML, CSS, React, Codeigniter
- Databases: MySQL, MongoDB
- Tools: Git, VS Code
- PC Troubleshooting & Maintenance

## Experience

**Junior Systems Developer — Far Eastern University Institute of Technology** *(December 2024 – July 2025)*

• **Developed and deployed a Render Farm Reservation System using PHP, CodeIgniter, MySQL, and JavaScript**

- Implemented **real-time PC monitoring**, including availability, maintenance status, and reservation schedules via an integrated calendar.
- Improved efficiency for administrators by simplifying monitoring and maintenance of render farm resources.

**• Built a Leave Management System for the HRIS to streamline employee leave filing and tracking.**

- Designed a **data-driven** system to enforce employee-specific conditions and leave entitlements.
- Provided employees with clear visibility into leave balances and filing history, while delivering HR valuable analytics on leave usage trends.

## Projects

- Alabites Food Ordering Application (React)

  - Thesis project developed for FEU Alabang food concessionaires
  - Enabled students to order meals through a centralized web platform

- Portfolio Website (React)
  - Personal web portfolio showcasing projects, skills, and experiences

- WanderBot Python Discord Companion Bot
  - Practice project for Python Programming
  - Provided Game server monitoring and a daily rewards system to encourage player engagement

- RotomDex Pokemon-Themed Wiki Application (React + Vite, PokeAPI)
  - Developed an interactive wiki-like website offering insights into Pokemon
  - Featured PokeAPI integration for fetching relevant data, evolution chains, and detailed pokemon stats
  - Designed with a clean mobile first UI to combine utility and user-friendliness

## Certifications

- ITS Python (Information Technology Specialist)
- ITS Databases (Information Technology Specialist)
